WinCEApp.img	36,433 KB	
Logo.bmp	383 KB	
DICT [Folder]	89MB	Dictionary Store Folder

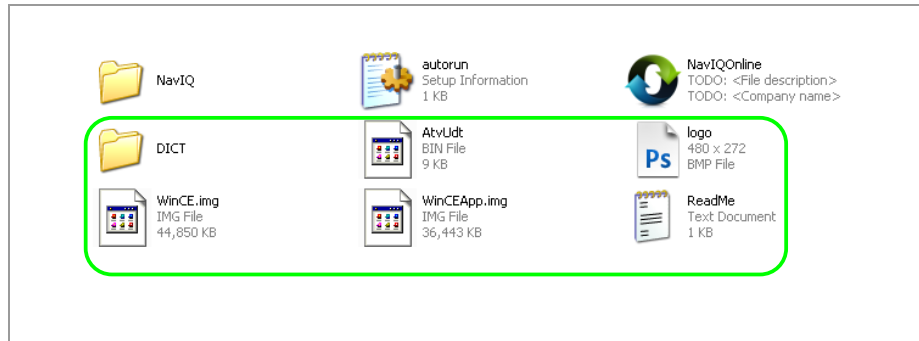

Precautions

It is VERY important that you do not interrupt the setup while GPS unit is being updated and rebooted. Do not remove the SD card or turn off the GPS unit during this process! Please ensure that there are at least 60% battery capacities before proceeding.

Installation Instructions

1. Download Sonsonic N400 Dictionary Files.
2. Connect your GPS device using USB cable to your computer (via mass storage). Make sure it's detected by your computer.
3. Extract N400+dictionary.rar to your computer. Do not extract it directly to your SD card, as that often produces errors or corrupted files.

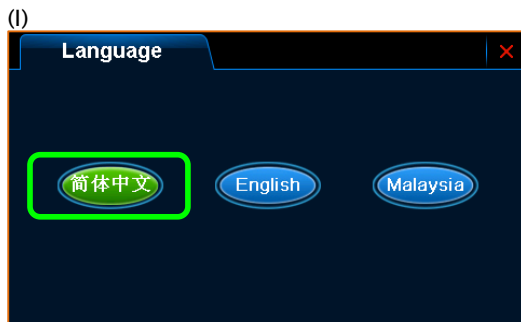

- Copy *AtvUdt.BIN*, *logo.BMP*, *WinCE.img*, *WinCEApp.img* and *DICT Folder* to the root of your SD card.

- Disconnect N400 device from computer.
- To perform system update, just cycle power on/off to restart the GPS unit. System update will run automatically.

WARNING: Do not remove the SD card or turn off the GPS unit during this process !

- Upon completion you'll be asked to Calibrate touch coordinate.
- To ensure update is successfully the Electronic Dictionary (电子词典) should appear in your Tool (百宝箱) under Chinese language interface.

- To avoid system update from repeating itself, make sure to delete the following files *AtvUdt.BIN*, *logo.BMP*, *WinCE.img* & *WinCEApp.img* from SD card.
